

## **DRAFT** Texas Chenier Plain Partners news release

For release June xx, 2016

Tim Richardson 202-352-1269

### **Texas Chenier Plain Deepwater Horizon Projects are focus of PBS conservation show airing nationally this season**

A new 13-minute television show about the upper Texas coast's Deepwater Horizon projects is available by limited release on the dropbox hyperlink below

[https://www.dropbox.com/s/t9ye3wa2s8ie9do/ChenierPlain\\_ExpandedFinal.mp4?dl=0](https://www.dropbox.com/s/t9ye3wa2s8ie9do/ChenierPlain_ExpandedFinal.mp4?dl=0) and on county and municipal websites in Chambers, Jefferson and Orange counties **starting today**.(once we're ready). The film is a longer version of a 9-minute film about the Chenier Plain coastal ecosystem that will begin airing nationally this July on PBS stations. Interested viewers can go to the following websites (**NEED to work this delivery part out, probably w/ help from your tech people.**) to view the longer, so called "Director's cut" of *Protecting the Chenier Plain*.

This American Land is a leading conservation televised newsmagazine series airing on PBS stations in 122 media markets in 42 states reaching nearly 80% of the total U.S. market.

This American Land (TAL) focuses on covering critical issues affecting conservation of natural resources. TAL is produced by the Environmental News Trust, a non-profit media company with a mission to raise awareness and support for conservation. To view the 9-minute version of "Protecting the Chenier Plain" visit [www.thisamericanland.org](http://www.thisamericanland.org), or [facebook.com/thisamericanland](https://facebook.com/thisamericanland).
