Re: Chambers County Landfill - Chambers County
Municipal Solid Waste (MSW) - Permit No. 1502
Permit Modification - Leachate Recirculation System
Extension of Time for Notice of Deficiency (NOD) Response
Tracking No. 12989048; RN101663565/CN600769798

Dear Mr. Kahla:

We reviewed your application for a MSW permit modification dated November 17, 2009, requesting to modify the Site Development Plan for the Chambers County Landfill, MSW Permit No. 1502, to implement recirculation of the leachate generated at the facility. A NOD letter was mailed on January 14, 2010 with a due date for a response of 30 days (February 13, 2010).

We have received a letter dated February 11, 2010 from Dannenbaum Environmental Corporation in which they request a time extension of three weeks in order to prepare a Hydrologic Evaluation of Landfill Performance (HELP) model for the leachate recirculation scenario for the NOD response which was due on February 13, 2010. Please submit your response by March 6, 2010.

Failure to submit a satisfactory response to the item(s) listed in the NOD letter dated January 14, 2010 may result in a recommendation to deny this modification request. If you have questions regarding this letter, please contact Mr. Harold Pearson, P. E., Project Manager at (512) 239-4465. When addressing written correspondence, please use mail code MC 124.

Sincerely,

A handwritten signature in black ink that reads "Richard C. Carmichael".

Richard C. Carmichael, Ph.D., P.E.
Manager, Municipal Solid Waste Permits Section
Waste Permits Division
