CORONAVIRUS EXPLAINED

Kate got infected yesterday but won't know until 14 days later.

Kate thinks she's healthy, but she's infecting 10 people per day.

These 10 people think they are OK, but they each infect 10 people per day. Now 100 people are infected.

These 100 people think they are healthy, but they pass the infection along. Now 1,000 people are infected.

**This is why it's important to stay home.
Be responsible. Slow the spread.**
